Please do not use tools to assemble this unit unless specifically indicated.

Reference the images above any time the instructions state "lock the hardware".  
 Note: Be sure to check all hardware is locked when completed.

Step 1. There are two installation options for magnet (part #3) based on door panel (part H) installation. Attach magnet (part #3) to rail (part G) using round head screws (part #4) and phillips head screwdriver. Attach knob (part #6) to drawer front panel (part I) using short round head bolt (part #7) and phillips head screwdriver. Attach handle (part #5) to door panel (part H) using long round head bolts (part #8) and phillips head screwdriver.

Step 2. Attach drawer left panel (part K) and drawer right panel (part L) to drawer back panel (part J) using small wood dowels (part #2) and lock the hardware. Slide drawer bottom panel (part M) into grooves of assembled unit (parts J, K & L). Attach drawer front panel (part I) to assembled unit (parts K, L & M) using small wood dowels (part #2) and lock the hardware.

Step 6. Attach legs (part O) to bottom panel (part D) using large wood dowels (part #1), flat washers (part #10), spring washers (part #11), bolts (part #9) and allen wrench (part #14).

Step 7. Carefully turn the unit upright. Attach back panel (part N) to assembled unit (parts A, B, C, D, E & F) using screws (part #13) and phillips head screwdriver.

Step 8. Slide assembled drawer into place. There are two installation options for door panel (part H). Attach door panel (part H) by placing bottom pin hinge (pre-installed in door) in the pre-drilled hole of bottom panel (part D). Then depress the top spring-loaded pin hinge so it can be placed in the pre-drilled hole of rail (part G).

NOTE: Be sure top and bottom pin hinges are fully extended to secure door in place.

Step 9. Place shelf holders (part #12) into desired position and then slide upper adjustable shelves (part P) and lower adjustable shelf (part Q) into place.
