ASTA OTTOMAN SAND

YC-1041-21

THANK YOU FOR YOUR PURCHASE!

Dear Customer,

Congratulations on your purchase of a piece of furniture made from American Black Walnut.

The individual wood slats in your piece of furniture are especially selected and sorted by hand by skilled craftsmen. They follow specific guidelines securing the quality demands and design preferences that lay out the form of this furniture range. Wood is a living material, affected by temperature and moisture for a long period after you start using it. Thereby, table tops and top plates will expand and shrink according to the seasons, and tiny cracks in the wood that may occur, are some of the joys of owning a natural product.

To make sure that you will enjoy many years of satisfaction with your piece of furniture, it is imperative with the right care and maintenance. Kindly follow the below guidelines, and we guarantee that your unit will stay beautiful in the years to come. It is our recommendation that you ask your furniture supplier for advice in any instance. Furthermore, we strongly suggest that you use the furniture oil that is available from your furniture store. The instructions will be stated on the product.

Your piece of furniture is already oil or soap treated from the factory. How often should the piece of furniture be treated with oil?

1. Preferably already before use
2. The surface should be treated when necessary, and we suggest as often as every three months

How do you apply the oil to the piece of furniture?

1. Apply plenty of oil with a clean cloth. Table tops must be treated underneath as well as on the top side. (Do not drop oil on the floor!)
2. After 15 minutes, polish with a sandpaper sponge or fine sandpaper (no. 150) along the grains of the wood
3. Polish off remaining oil with a clean, dry cloth
4. Do not use the item, until the oil is completely absorbed

Daily maintenance of both oiled and lacquered surfaces:

1. Clean the surface with a clean, wrung out cloth. Never use detergents
2. Coloured stains like red wine must be dried off immediately
3. Smaller stains and marks can be polished off with sand paper no. 220 or 180
4. Avoid extreme humidity and heat. Do not place the item close to heat sources
5. Legs for coffee and dining tables must be fastened occasionally
