

# ASSEMBLY INSTRUCTION

1. Keep the table base on a protective surface.
2. Unscrew the handle from inner section and fix it in front using spanner (See image 2)
3. Match 'A', 'B', 'C' & 'D' on table top with 'A', 'B', 'C' & 'D' on base. Using bolt & washer fix the table top with base with spanner (See image 3).
4. Now fix the metal strip paper stopper on table top (See image 4).
5. Table is ready to use.
6. To fix the top at desired angle please loosen the TILT key at both ends and adjust the top. Once the angle is fixed again tighten the TILT Key.
7. To adjust the height of the table loosen the ADJUSTING Key and rotate the crank handle to fix the table at desired height.
